

## DJ Booking

Dustin Drase is available to DJ your event!

For as long as I can remember, I've been an obsessive music collector. When I first bought turntables, it was mostly as an excuse to play records for some friends and myself. Slowly it became something I did for the masses, be it at house parties, on the radio, at bars, restaurants, clubs, music festivals and even weddings.

Music should provide the perfect backdrop to any occasion, and I would more than happy to help make that a reality. Over the years I've done all sorts of custom tailored events and had a blast doing it. The goal every time is to help throw a great party without playing the same old cheesy songs.

My collection of over 75,000 + songs (on cd, digital and yes vinyl too) covers a wide array of styles including 50s, 60s, 70s, 80s, 90s, hip-hop, funk, soul, jazz, one hit wonders, modern pop, club cuts, mash ups, girl groups, smooth grooves, rock, new wave, swing, Brazilian, post-punk, down tempo, indie, electronica, disco, Latin, exotica and oh so much more! I hope you'll consider me as your DJ! For more information or to set up a meeting, email [ddrase @ gmail.com](mailto:ddrase@gmail.com).
